

Troop 356's Trip to the Commissioning of the  
USS Spruance (DDG 111)  
October 1<sup>st</sup>, 2011

Andrew was SPL at the time. During our free time, we took inventing, weather, and fishing. Our trip to key west was educational, fun, and exiting. It was educational because we could take merit badge classes and learn the details of the new destroyer. It was fun because we got to see something that we might never see again. It was also exiting because we were always doing fun activities.
